U.S. Department of Justice

Federal Bureau of Prisons

South Central Regional Office

U.S. Armed Forces Reserve Complex  
344 Marine Forces Drive  
Grand Prairie, Texas 75051

November 9, 2022

Mr. Barrett, Jeremy  
Reg. No. 04807-095  
FCI Oakdale I  
Federal Correctional Institution  
P.O. Box 5000  
Oakdale, LA 71463

Re: Administrative Tort Claim No. TRT-SCR-2022-04286

Mr. Barrett:

Your administrative claim was received in the South Central Regional Office for processing on April 15, 2022. You filed a claim requesting compensation in the amount of \$1,000,000.00 for personal injury. On May 6, 2022, a letter of acknowledgement was mailed to you and a request for investigation was sent to the incident institution. Be advised that to date, the investigative process regarding your claim remains ongoing. Pursuant to 28 C.F.R. § 543.32(i): "Generally, you will receive a decision regarding your claim within six months of when you properly file the claim. If you have not received a letter either proposing a settlement or denying your claim within six months after the date your claim was filed, you may assume your claim has been denied." While it is acknowledged that the six month date for your claim expired on October 14, 2022, this office intends to keep your case open and adjudicate your claim upon receipt of the investigation.

Sincerely,

GERARD  
RAWLS

Stated within the basis of claim.		FCI-1 Oakdale, Medical staff members			
12. (See instructions on reverse). AMOUNT OF CLAIM (In dollars)					
12a. PROPERTY DAMAGE	12b. PERSONAL INJURY \$1,000,000.00		12c. WRONGFUL DEATH	12d. TOTAL (Failure to specify may cause forfeiture of your rights). \$1,000,000.00	
I CERTIFY THAT THE AMOUNT OF CLAIM COVERS ONLY DAMAGES AND INJURIES CAUSED BY THE INCIDENT ABOVE AND AGREE TO ACCEPT SAID AMOUNT IN FULL SATISFACTION AND FINAL SETTLEMENT OF THIS CLAIM.					
13a. SIGNATURE OF CLAIMANT (See instructions on reverse side).			13b. PHONE NUMBER OF PERSON SIGNING FORM NONE	14. DATE OF SIGNATURE 04/11/2022	
CIVIL PENALTY FOR PRESENTING FRAUDULENT CLAIM			CRIMINAL PENALTY FOR PRESENTING FRAUDULENT CLAIM OR MAKING FALSE STATEMENTS		
The claimant is liable to the United States Government for a civil penalty of not less than \$5,000 and not more than \$10,000, plus 3 times the amount of damages sustained by the Government. (See 31 U.S.C. 3729).			Fine, imprisonment, or both. (See 18 U.S.C. 287, 1001.)		

## INSURANCE COVERAGE

In order that subrogation claims may be adjudicated, it is essential that the claimant provide the following information regarding the insurance coverage of the vehicle or property.

15. Do you carry accident insurance? ☐ Yes If yes, give name and address of insurance company (Number, Street, City, State, and Zip Code) and policy number. ☒ No

16. Have you filed a claim with your insurance carrier in this instance, and if so, is it full coverage or deductible? ☐ Yes ☒ No 17. If deductible, state amount.

18. If a claim has been filed with your carrier, what action has your insurer taken or proposed to take with reference to your claim? (It is necessary that you ascertain these facts).

19. Do you carry public liability and property damage insurance? ☐ Yes If yes, give name and address of insurance carrier (Number, Street, City, State, and Zip Code). ☒ No

## INSTRUCTIONS

Claims presented under the Federal Tort Claims Act should be submitted directly to the "appropriate Federal agency" whose employee(s) was involved in the incident. If the incident involves more than one claimant, each claimant should submit a separate claim form.

Complete all items - Insert the word NONE where applicable.

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE, AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY

Failure to completely execute this form or to supply the requested material within two years from the date the claim accrued may render your claim invalid. A claim is deemed presented when it is received by the appropriate agency; not when it is mailed.

If instruction is needed in completing this form, the agency listed in item #1 on the reverse side may be contacted. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplementing regulations. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory to the Government is submitted with the claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of the claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file for both personal injury and property damage, the amount for each must be shown in item number 12 of this form.

DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO HAVE OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.

The amount claimed should be substantiated by competent evidence as follows:

(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of the injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.

(b) In support of claims for damage to property, which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damaged, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to specify a sum certain will render your claim invalid and may result in forfeiture of your rights.

## PRIVACY ACT NOTICE

This Notice is provided in accordance with the Privacy Act, 5 U.S.C. 552a(e)(3), and concerns the information requested in the letter to which this Notice is attached.

A. **Authority:** The requested information is solicited pursuant to one or more of the following: 5 U.S.C. 301, 28 U.S.C. 501 et seq., 28 U.S.C. 2671 et seq., 28 C.F.R. Part 14.

B. **Principal Purpose:** The information requested is to be used in evaluating claims.

C. **Routine Use:** See the Notices of Systems of Records for the agency to whom you are submitting this form for this information.

D. **Effect of Failure to Respond:** Disclosure is voluntary. However, failure to supply the requested information or to execute the form may render your claim "invalid."

## PAPERWORK REDUCTION ACT NOTICE

This notice is solely for the purpose of the Paperwork Reduction Act, 44 U.S.C. 3501. Public reporting burden for this collection of information is estimated to average 6 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Director, Tort Branch, Attention: Paperwork Reduction Staff, Civil Division, U.S. Department of Justice, Washington, DC 20530 or to the Office of Management and Budget. Do not mail completed form(s) to these addresses.

SUBJECT: CONTINUATION ATTACHMENT,

DATE: 04/07/2022 09:00:23 PM

Mr. Maxon then said, "you mean you don't know you have glaucoma"? I responded, "No Sir, this is the first time I'm hearing anything about glaucoma". Mr. Maxon told me that it is in my file and that in 2013 my file shows that optic nerve damage, (CUPPING), was at 0.3% and that now optic nerve damage, (CUPPING), is at 0.75%. I asked Mr. Maxon what he meant by (CUPPING) and he told me that when the damage to the surface of the optic nerve progresses, it starts forming something like a shallow bowl or a depression in the optic nerve. I asked Mr. Maxon what could be done to repair the damage and Mr. Maxon told me that it cannot be fixed. I asked Mr. Maxon, if the damage to my optic nerves is at 0.75%, what happens when it gets to 100%, Mr. Maxon told me, "you will be blind". Mr. Maxon told me, "don't panic, I'm going to refer you for ophthalmology to see a specialist so you can start getting some treatment for the glaucoma".

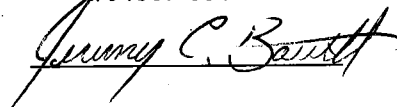

On April 30, 2021 I went on a medical trip to an Ophthalmology Clinic for further diagnosis and for beginning treatment of glaucoma. I was prescribed Brimonidine eye drops but I started having problems with side effects. I was later switched to Timolol eye drops which have much less problems with side effects. On my last visit to the Ophthalmology Clinic I asked the Ophthalmologist if he thought that optic nerve damage going from 0.3% to 0.75% in a 7 years time span was considered as a fast progression, he said YES it is. I asked him if the treatment I am receiving now would stop the progression of the nerve damage and he said, "NO, lets just say that it will hold it at bay for a while". He then said, "The damage would have been much less and it would have been much better if you had been started on treatment for this 7 years or even 5 years back."

Medical records clearly show that the BOP and the medical personnel at both Pollock and at Oakdale FCI-1 knew about the beginning of Optic Nerve destruction (CUPPING) and that it was progressive in 2013. Even though the BOP is now attempting to treat the problem, it is too little too late. Medical records show that even with the treatment being provided for almost a year now, my status is at this time still listed as, (INADEQUATELY CONTROLLED). Had any attempt at treatment been started years back when the nerve damage was first discovered, the proper treatment would have already been found and it would have been able to slow the on going damage substantially. I do not claim that the BOP is not treating me now for this problem but I am claiming that due to the medical negligence and the deliberate indifference of medical personnel and the BOP, I have suffered at least 75% destruction of the optic nerves in both the left and right eyes and no amount of medical treatment can repair the damage that has occurred to my eyes. This means that at least 3/4 of my eye sight has been irrevocably lost and cannot be replaced. It is the determination of a professional Ophthalmologist that had treatment been started even 5 years earlier, the fact that I will go blind would have been put off for a much longer period of time. It is even possible that had treatment been started years earlier, I would not go blind before the time of my death. I understand that I broke the law and I have been serving my time and paying my debt to society. But I should not have also had to pay with the loss of my eyesight because of the medical negligence and the deliberate indifference of the BOP who waited over 7 years too late to try and make a show of some kind of treatment. It should be noted that the optic nerve damage, (CUPPING), is still progressive and on going at this time.

Respectfully Submitted,

Jeremy C. Barrett

Chronic Care - Advanced Practice Provider Follow Up encounter performed at Health Services.

**SUBJECTIVE:**

COMPLAINT 1 Provider: Ardoin, Alicia FNP-C

Chief Complaint: CARDIAC

Subjective: Inmate has a history of cardiovascular disease. Currently taking aspirin, atorvastatin, nitroglycerin. Inmate states "I take my medicines".

Pain: No

COMPLAINT 2 Provider: Ardoin, Alicia FNP-C

Chief Complaint: HYPERTENSION

Subjective: Inmate reports history of hypertension, currently taking metoprolol. Inmate states "I take my medicines".

Pain: No

COMPLAINT 3 Provider: Ardoin, Alicia FNP-C

Chief Complaint: ORTHOPEDIC/RHEUMATOLOGY

Subjective: Inmate has a history of left shoulder pain/recent surgery. Not currently taking any medications for pain. Inmate states "It's doing ok".

Pain: No

COMPLAINT 4 Provider: Ardoin, Alicia FNP-C

Chief Complaint: GENERAL

Subjective: Inmate reports history of glaucoma. Currently prescribed brimonidine. Patient states "I stopped the drops. They were causing sores in my eyes so I stopped them to let my eyes heal up". Reports chronic irritation, itching, and sores since starting brimonidine. Seen by optometry and they recommended adding artificial tears. Patient started these drops but did not see any improvement; therefore he stopped all drops completely. Eyes are now much better. Denies any wounds or irritation at this time.

Pain: No

**Comments**

58 year old male with history of hypertension, coronary artery disease, chronic left shoulder pain, and glaucoma. Patient had a history of coronary artery stenting done in 2019. Patient recently underwent left shoulder repair of supraspinatus, infraspinatus, and dissection of ACJ osteophyte on 7/27/2021. Patient is doing well post op. Recently had irritation of bilateral eyes. Seen by optometry on 8/24/2021 and recommended artificial tears. Patient after starting artificial tears, his eyes continued to get worse; therefore, he stopped all drops. Reports his eyes are much better now. Will reintroduce brimonidine drops and see if he is able tolerate them. He does have a follow up with optometry and an outside consult with the ophthalmologist.

FROM: 04807095

TO:

SUBJECT: ADDENDUM

DATE: 09/18/2022 10:51:05 AM

To be added to Administrative Tort Claim - TRT-SCR-2022-04286

I have had no answer from your office and as my claim is concerning an on going and progressive illness, (GLAUCOMA), I have more information and evidence to add to my TORT Claim which is legally allowed through the Administrative Tort Claim process.

On April 8, 2022 I was brought to Louisiana Eye & Laser Clinic for a follow up treatment for Glaucoma. I was told that my MRI of Brain and Orbits looked good. The results from the April 8th follow up were forwarded to this facility, Oakdale FCI - 1. I was seen at this facility on April 13, 2022 by Miss Shaista Vally who was hired here as the new Optometrist. Miss Vally's professional opinion was that I may not have Glaucoma and that my prison records were either misread or they were inaccurate. She continually tried to down play the seriousness of my illness and claimed that my questions and comments concerning her professional opinion were both inaccurate and irrational. But in the end she had to admit that my situation is not good. ( SEE MISS VALLY'S NOTES LISTED UNDER OTHER ).

It should also be noted that Optometrist Miss Shaista Vally's conduct, professional knowledge and diagnostic skills must have been below average because she no longer works at this facility.

On August 12, 2022 I was brought to Louisiana Eye & Laser Clinic for another follow up treatment. A VISUAL PERIPHERY TEST was performed and DR. Redmond showed me a computerized graph showing a substantial amount of peripheral vision loss in one eye and starting loss of peripheral vision in the other eye. DR. Redmond informed me that this is because of the glaucoma. I then proceeded to tell DR. Redmond about the comments and opinions of Optometrist Miss Shaista Vally, DR. Redmond told me that there are only three (3) ways that my eye's could have sustained the amount of nerve damage that my eye's have. 1. Is from having a Brain Tumor. 2. Is from serious blunt force trauma and 3. Is from Glaucoma. DR. Redmond told me that the MRI of the Brain and Orbits completely eliminate the possibility of a Brain Tumor or Trauma to the eye's, he told me that there is no question that I have Glaucoma. He also repeated the fact that had treatment been started years earlier when the Glaucoma was first detected, the damage and the progression in my case would not be as severe as they are at this time, someone dropped the ball.

I respectfully request that this missive and all of the attached documentation and medical records be filed along with Administrative Tort Claim - TRT - SCR - 2022 - 04286. I respectfully and patiently await your decision on my Tort Claim by your pending October 14' 2022 deadline.

( Records and documents include April 8, 2022 and August 12, 2022 follow up treatments from Louisiana Eye & Laser, April 13, 2022 diagnostics, evaluations and comments from Optometrist Shaista Vally and Christus Health System Radiology Report for MRI of Brain and Orbits ).

Respectfully Submitted,  
Jeremy C. Barrett #04807-095

OD: CD ratio 0.75  
OD Optic Disc: deep cup and excavation  
A dilated fundus exam was performed OD.  
Ophthalmoscopic examination of retina and vessels OD:  
OD Vitreous: vitreous clear without hemorrhage, cells or pigment  
OD Vessels: vessels with normal contour, caliber without neovascularization  
OD Macula: hypopigmented spot nasal  
OD Periphery: periphery normal appearance without retinal tears, breaks, holes or mass  
  
General Appearance of the patient is well nourished.  
Orientation: alert and oriented x 3.  
Mood and affect: no acute distress.

**Tests****OCT, Optic Nerve**Diagnostic Procedure: Optic Nerve Tomography (Zeiss Cirrus) - OU  
Indication: Glaucoma Suspect OU

Findings OD: increased cup to disc ratio  
Other Findings OD: RNFL THINNING  
Diagnosis OD: glaucoma, suspect  
Findings OS: increased cup to disc ratio  
Other Findings OS: RNFL THINNING  
Diagnosis OS: glaucoma, suspect  
Reliability: good

**Impression/Plan:**

1. Glaucoma Suspect OU - According to prison records C/D was 0.3 in 2013 and is now 0.75MRI WNL open angle with borderline findings, high risk (.442.023)  
Status: Unchanged  
Existing condition with new problem, treatment or diagnostic  
  
Plan: Counseling - Glaucoma suspect.  
Please refer to the education handout for detailed counseling.

exam  
OS Lid Margin: MGD  
Slit lamp examination OS:  
OS Conjunctiva: white and quiet  
OS Cornea: tear debris  
OS Anterior Chamber: deep and quiet anterior chamber  
OS Iris: normal iris without rubeosis  
OS Lens: clear lens  
A dilated exam of the optic disc was performed OS.  
Ophthalmoscopic examination of optic disc OS:  
OS: CD ratio 0.75  
OS Optic Disc: deep cup and excavation  
A dilated fundus exam was performed OS.  
Ophthalmoscopic examination of retina and vessels OS:  
OS Vitreous: vitreous clear without hemorrhage, cells or pigment  
OS Vessels: vessels with normal contour, caliber without neovascularization  
OS Macula: macula normal contour without heme, edema, drusen or exudate  
OS Periphery: periphery normal appearance without retinal tears, breaks, holes or mass

After counseling the patient, we decided on the following plan for the right eye: Observation

After counseling the patient, we decided on the following plan for the left eye: Observation

**Plan: Treatment Regimen Glaucoma.**

- Continue timolol maleate 0.5 % Eye Drops one drop twice daily to BOTH EYES

**2. Dry Eye Syndrome OU**

(H04.123)

Status: Inadequately Controlled

Existing condition with new problem, treatment or diagnostic

**Plan: Counseling - Dry Eye.**

Please refer to the education handout for detailed counseling.

After counseling the patient, we decided on the following plan RLL: Observation

After counseling the patient, we decided on the following plan LLL: Observation

**Plan: OTC Regimen Dry Eye.**

OTC OU:

Artificial Tears : apply one drop of artificial tears (ie: Oasis or Systane or Refresh Optive) 4-6 times daily. Can also use PF tears as much as needed (recommend 10 times a day).

Lubricant Gels : apply lubricant gel to affected eyes at bedtime.

Ointments : apply Genteal and Lacrilube to affected eyes at bedtime.

Warm Compresses : apply warm compresses to the lids once a day.

**Follow up in 6 months for: IOP Check, Visual Field Testing**

**Staff:**

Patrick Redmond, MD (Primary Provider) (Bill Under)

Kelsie Briggs

Electronically Signed By: Patrick Redmond, MD, 04/08/2022 10:46 AM CDT

Inmate Name: BARRETT, JEREMY CARLTON

Reg #: 04807-095

Date of Birth: 03/07/1963

Sex: M Race: WHITE

Facility: OAK

Encounter Date: 04/13/2022 07:45

Provider: Vally, Shaista OD,

Unit: P02

**Exam Comments**

Dilation: NO

Cup to Disc Ratio:

Right Eye: 0.75R

Left eye: 0.7/75

IOP:

OD: 10, 14, 13

OS: 11, 12, 11

glaucoma suspect secondary to large CDR.

Tmax per outside notes approx 19 in each eye, no documented IOP &gt;15 within BOP documents even before glaucoma management.

If normal tension glaucoma is suspected (as MR head IS Normal), then target IOP may need to be even lower.

Previous notes INCORRECTLY report 2013 notes to have 0.3 CDR but that appears to have been written under pupil size.

cup to disc was 0.55 in 2013.

Please include 2013 exam and MR head results for outside ophthalmologist to review.

Outside ophthalmology to consider normal tension labs as RNFL thinning is confirmed with low/normal eye pressure.

Reassured patient that a change of 0.55 to 0.75 is not as alarming as 0.3 to 0.75 in less than 10 years, but it is still progression nonetheless.

Continue Tim Qam OU.

patient needs new glasses as they are broken

**ASSESSMENT:**

Astigmatism, H52209 - Current

Unspecified glaucoma, H409 - Current

**PLAN:****Disposition:**

Follow-up at Chronic Care Clinic as Needed

**Other:**

Please continue Timoptic Qam 1 gtt OU indefinitely until changed by outside ophthalmology. Needs refill on TearsGen as glaucoma drops can cause chronic surface irritation.

Glasses broken, please re-order.

Please include 2013 exam notes and MR head for outside ophthalmology to review. Incorrect measurement of cup to disc ratio from 2013 is not 0.3, appears to have been an error, should be 0.55 per 2013 note. Still worse/progression but not as drastic of a change in a short period.

**Patient Education Topics:**

<u>Date Initiated</u>	<u>Format</u>	<u>Handout/Topic</u>	<u>Provider</u>	<u>Outcome</u>
04/14/2022	Counseling	Diagnosis	Vally, Shaista	Verbalizes Understanding

Lengthy discussion regarding cup to disc size does NOT equate to loss of vision, patient incorrectly believed that 0.75 meant that he already lost 75% of his vision. Reassured patient that visual function is measured by

MRI of the internal auditory canals without and with contrast,  
3/7/2022 3:35 PM CST

HISTORY: GLAUCOMA, NERVE DAMAGE, blurred vision, headache, nausea,  
ocular pain.

TECHNIQUE: Whole brain MR images in the axial plane utilizing FLAIR  
and T2 sequences are obtained. Precontrast high-resolution thin  
section coronal and axial T1 and T2 images through the internal  
auditory canals are then obtained. Following contrast administration,  
thin section coronal and axial imaging of the IACs and also whole  
brain T1 imaging is then performed in all 3 planes.

**FINDINGS:**

**POSTERIOR FOSSA:**

Pons/brainstem: Normal signal with no evidence of chronic white  
matter disease or lacunar infarction. No abnormal enhancement.

Prepontine cistern: Patent with no evidence of mass or pathologic  
enhancement.

Internal auditory canals: Symmetric in size and patent with no

evidence of intracranial mass or enhancement.

Labyrinthine structures: The cochlea and semicircular canals demonstrate symmetric size with no findings of labyrinthine ossification or asymmetry.

VII/VIII cranial nerves: Symmetric in size without abnormal enhancement or nodularity

V cranial nerve: Symmetric in size without mass or enhancement

**WHOLE BRAIN IMAGES:**

There is a normal appearance to midline sagittal structures with no evidence of abnormal pathologic intracranial enhancement. Sinuses and mastoids and orbits appear normal.

**IMPRESSION:**

1. Negative MRI study of the internal auditory canals.

High-resolution MRI of the orbits without and with contrast, 3/7/2022  
3:35 PM CST

HISTORY: Patient with complaints of blurred vision and headache  
nausea and ocular pain, chronic

COMPARISON: None

Technique: High-resolution ultrathin section coronal and axial  
imaging of the orbital regions are performed utilizing T1, fat sat  
T1, T2, and postcontrast fat sat T2 imaging protocols utilizing 3 mm  
high-resolution images.

**FINDINGS:**

Attention to the globes reveals no evidence of mass. Lenses are  
symmetric in position without dislocation. Intraorbital structures  
are normal and optic nerves are symmetric. No pathologic optic nerve  
enhancement. Extraocular muscles are symmetric. There is no  
intraorbital inflammatory process or mass. Lacrimal glands are normal  
bilaterally. Optic chiasm and optic tracts are normal. Pituitary and  
suprasellar cistern are normal.
